## Introduction

## Affirmative Action Program

## Annual Data Report

Since 1935. Michigan State University has had an established policy to build a community in which equal opportunity is practiced and available resources are directed toward assuring that everyone within the university community is able to fully participate in society. Beyond the Board of Trustees policies and related university actions, relevant federal and state laws and regulations provide for certain previously excluded or neglected classes of people to share fully in the university community as well as the broader community.

It is recognized that effective utilization of qualified, available human resources requires more than a statement of policy. The University's Affirmative Action Program includes an Affirmative Action Plan that establishes goals and communicates guidelines and procedures to be followed in providing equal employment and advancement opportunities at Michigan State University. Implementation of the university's affirmative action program rests with line administrators.

The 2002-2003 Annual Data Report is prepared to provide updates on progress to the MSU Board of Trustees. The Report contains ten-year trend data in charts, graphs and tables to illustrate changes in areas of employment and enrollment as they relate to women, minorities and persons with disabilities.

Contributions to this report were made by the Office of Planning and Budgets, the Assistant Provost and Assistant Vice President for Academic Human Resources, the Assistant Vice President for Human Resources, Career Development and Placement Services' Student Employment Office, and the Office of Admissions and Scholarships.

More detailed information on any specific section of the Report or the University's affirmative action program may be obtained from the Office of Affirmative Action, Compliance and Monitoring (AACM). The Report is available in large print or alternate format upon request to AACM, Room 102 Olds Hall, Michigan State University, East Lansing, MI 48824, 517/353-3922.

The racial/ethnic identification of faculty and academic staff as reported by the university is determined by the employing unit in concert with the individual. Support staff and students provide the racial/ethnic identification reported by the university.

Black: A person having origins in any of the black racial groups of Africa, but not Hispanic.

Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Istands.

Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.

American Indian or Alaskan Native: A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition. (Verification of tribal affiliation is required for support staff.)

Persons with disabilities are self-identified by faculty, academic staff, support staff and students.

Michigan Persons with Disabilities Civil Rights Act: A determinable physical or mental characteristic of an individual, which may result from disease, injury, congenital condition of birth, or functional disorder, if the characteristic substantially limits one or more major life activities of that individual and is unrelated to the individual's ability to perform the duties of a particular job or position or substantially limits one or more of the major life activities of that individual and is unrelated to the individual's qualifications for employment or promotion.

Americans with Disabilifies Act: A person who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment or is regarded as having such an impairment.

Employment Categories

Administrative-Professional Data
for 2002-03

The following employment categories for higher education institutions are used in EEO reporting to federal and state agencies.

Officials and Managers: Occupations in which employees set broad policies, exercise overall responsibility for execution of these policies, or direct individual units or program areas of operation.

Professional: Occupations which require four years or more of college, experience, or comparable background. Jobs in this category do not include occupations whose primary task is instruction.

Clerical: Occupations in which employees perform tasks associated with clerical or secretarial activities, including internal and/or external communication, recording and retrieval of data or other paper work required in an office.

Technical: Occupations which require a combination of basic scientific or technical knowledge and manual skills which can be obtained through on the job training or past high school education, typically equivalent to two years at a community college.

Service/Mainfenance: Occupations in which workers perform duties which result in or contribute to the comfort, convenience, hygiene or safety of the general public or which contribute to the upkeep and care of buildings, facilities, grounds, or property.

Skilled Trades: Occupations that typically require a relatively high level of manual skill and thorough and comprehensive knowledge of the processes involved in the work. Usually require extensive apprenticeship, on-the-job, or other training.

An extensive review of administrative-professional job groups determined that 131 job titles should be moved from the officials and managers category to the professional category, effective for the 2002-2003 reporting period. These changes were made in accordance with the clarified definition from the Department of Education directing the Integrated Post Secondary Education Data System (IPEDS) reporting.

Domestic Totals

University Totals

Graduate Assistant Data

Student Employment Data

Student data follows the conventions established by the Integrated Postsecondary Education Data System (IPEDS). Domestic totals include U.S. citizens, permanent residents, and a small group of non-citizens eligible for aid.

University totals include all students: U.S. citizens, permanent residents, and international students.

Graduate assistant data reflects the Fall Semester payroll. Gender data includes international students; minority data does not

Student employment data in the graphs reflects the number of students actually paid for one a two-week payroll period in October. The 2003 data reflects the payroll period October 27-November 9, 2003 (mid-semester).

The number of individual students paid on the student employee payroll during a calendar year is higher than the data presented in this report. For example, the number of student employees reported for the October payroll period in 2002 was 8,483 . The number of students paid for the calendar year 2002, based on the number of W-4 forms on file at the Payroll Office, was 17,035.

Definitions of Terms Used

Student data follows the conventions established by the Integrated Postsecondary Education Data System (IPEDS). Domestic totals include U.S. citizens, permanent residents, and a small group of non-citizens eligible for aid.

University totals include all students: U.S. citizens, permanent residents, and international students.

Data for students with disabilities was obtained from the Student Information System and includes both mobility and non-mobility characteristics as contained in the Special Needs field of the Student Information System data extracts.
